Program Description

Provides students with an adaptable education in emergency management as an integral element of comprehensive public safety theory and practice. Complements a core of knowledge essential to all public safety fields with specialized coursework in preparedness, planning, and the skills necessary to organize and lead emergency management operations. Offers a flexible structure that allows students to pursue emergency management broadly, or to focus and extend their study of emergency management into any of several industry-relevant specialization areas.

As an AOC within the Public Safety A.A.S., coursework in this program is designed to integrate well with the Fire Service Administration and National Security & Intelligence AOCs. Students are encouraged to talk to the Program Manager or an advisor to help choose the most advantageous program for their academic or career interests.

Program Learning Outcomes

- Coordinate and communicate information about emergency management procedures, processes, and activities to the public.
- Demonstrate the oral and written communications skills necessary to work in and facilitation partnerships between emergency management agencies and/or partner organizations.
- Explain the role of emergency management within, and its relationships with elements of, the U.S. national security, public safety, and political environments.
- Develop the leadership abilities necessary to direct and organize volunteers and professionals within emergency management agencies and their partner organizations.
- Demonstrate an understanding of the principles, frameworks, operations, and tools necessary to work effectively in a professional emergency management context.

Program Requirements

- Students must complete their credit **English and Mathematics** within the first 24 credits.
- One course must meet the cultural competence graduation requirement (<https://frederick-public.courseleaf.com/general-education-core/#cultural>).
- **CORE: The General Education CORE** is that foundation of the higher education curriculum providing a coherent intellectual experience for all students. Students should check with an advisor or the transfer

institution (ARTSYS) before selecting General Education CORE requirements. <http://artsys.usmd.edu/>

- In some General Education categories (Mathematics, Biological & Physical Sciences), a 4-credit course selected from the GenEd course list will satisfy the requirement in place of a 3-credit course. Students should check with an advisor before selecting these courses.
- For the Physical Education, Health, or Nutrition requirement, a 3-credit PHED, HLTH, or NUTR course may satisfy the requirement in place of a 1-credit course. Students should check with an advisor before selecting this course.
- Students must earn a grade of "C" or better in ENGL 101 English Composition.
- Students must complete a minimum of nine credits at the 200-level.

2

Only take this course if you did not already select it as a "Focus" option.

Part-time Students

Part-time students should complete courses in the order listed on the pathway. Please contact program manager for questions about part-time status.

Students who take fewer than 15 credits each semester or who require developmental English or Math coursework will need additional semesters to complete their degrees. Summer term and January session classes may help students to make faster progress.

Pathway Legend

Milestone - courses with the Milestone notation should be taken within the recommend credit range to stay on track for program completion.

Fall, Spring, Summer - courses with a Fall, Spring, or Summer notation indicate the course is offered in the specified semester only.
