

ONLINE COURSES (ONL)

ONL 526 - Human Anatomy and Physiology

This course is designed to provide an overview of basic anatomy and physiology to students preparing for the medical coding AAPC certification class. The course begins with an explanation of the nature of matter and principles of chemistry, cell anatomy and physiology and principles of genetics. The anatomy and physiology of the 11 organ systems and their structure and functions are introduced. Lessons include information about specific disorders and conditions and recent advances in medicine.
